Pipers Win Bi-District, To Play Stratford Friday

The Pipers exploded for 54 points in the second half at Anson Tuesday night to down the Baird Bears, 86-59, for the Bi-District Championship and the right to meet Stratford in the first round of Regional play in Lubbock Friday.

The Pipers (28-0) will play Stratford (27-4) at 4:30 Friday in Lubbock Municipal Coliseum on the Texas Tech University Campus. Stratford (Dist. 1) beat Memphis (Dist. 2), 48-46, Tuesday night in a Bi-District game played in Dumas.

The Pipers struggled with Baird for about 12 minutes before they began to pull away. Although the Pipers never trailed the Bears in the early going, the Bears kept pulling within one point until late in the second period when the Pipers moved out to a six-point lead at half-time.

Hamlin pushed their lead up to 13 points by the end of the third period, with it hovering around 11 points much of the time. Although the Pipers appeared to be in control of the contest, the tension of the Hamlin fans reflected the fact that in the past two games the Pipers have blown similar leads and had to settle for one-point victories.

But this was not the case in Anson Tuesday night as the

Coach Keith Barrick's squad began to pick up the tempo and outscored the Bears 27-13 in the final quarter. Taking full advantage of their speed and quickness, the Pipers outscored the Bears 20-4 in three and half minutes before Coach Barrick sent in his subs.

After a rather slow start, Delbert Thompson poured in 15 points in the second half to lead the Pipers scoring attack for the night with 23 points. He also was credited with seven assists and 11 rebounds. The Pipers had four players in double figures with Ronald (Chill) Brown

scoring 19 points, Charles Brown 17, Bo Ervine 13, and Paul Reynolds 11. Stanley Jones added two more points and Tomas Gonzalez 1.

Reynolds led the Pipers in rebounds with 13.

Jim Sadler was high for Baird with 22 points. He had 10 of these in the first period to keep the Bears in the game in the early going.

In other action in Region 1A, Vega (3-A) played Hale Center (4-A) in Dimmitt Tuesday evening and Clint (5-A) played Seagraves (6-A) in Monahans Tuesday. No results were available Wednesday morning on these two games. The two winners will play at 6 o'clock Friday in Lubbock.

The winner of that game will meet the winner of the Hamlin-Stratford game at noon on Saturday. That winner will advance to the State playoff in Austin with the first game scheduled for 8:30 a.m. Saturday, Mar. 5 in Gregory Gymnasium.

Stewart has been the pastor of the local church for the past 11 years.

Except for \$25 Fee for Female Dogs—

Public Hearing Draws Support for Dog Law

A number of local citizens showed up at the City Council meeting here Monday for the public hearing on a proposed dog ordinance being considered by the council. Apparently, most of those attending the meeting supported the "Leash Law" section of the ordinance but several voiced opposition to the fee schedule proposed for female dogs.

The council listened to those attending with Councilman Ernest Williams

serving as moderator for the hearing but then delayed taking any action until the March session.

The only section of the ordinance that seemed to draw any opposition was the section that called for a \$25.00 fee for unspayed female dogs while only requiring a \$3.00 fee for male or spayed female dogs.

The council heard a report by Billy Jacobs, an engineer for Yeatts and Decker, Inc., Consulting Engineers of Abilene, on the progress of

the city's Wastewater Treatment Plant being constructed. Jacobs told the council that representatives of the Texas Water Quality Board and the Environmental Protection Agency were to be here Wednesday to inspect the plant.

He told the council that he expected part of the plant to be in operation in about another week. The city has received an extension to April 21 to have the \$297,000 project completed.

Councilman Buford Bigham told the council that he had discussed the city's landfill operation with Earl Kiker, Fisher County Commissioner, and that the commissioner had promised to help with some of the dirt work since many Fisher County residents use the city's landfill to dispose of their trash.

The council voted to advertise for bids for a backhoe machine for the city. The council will seek bids on both

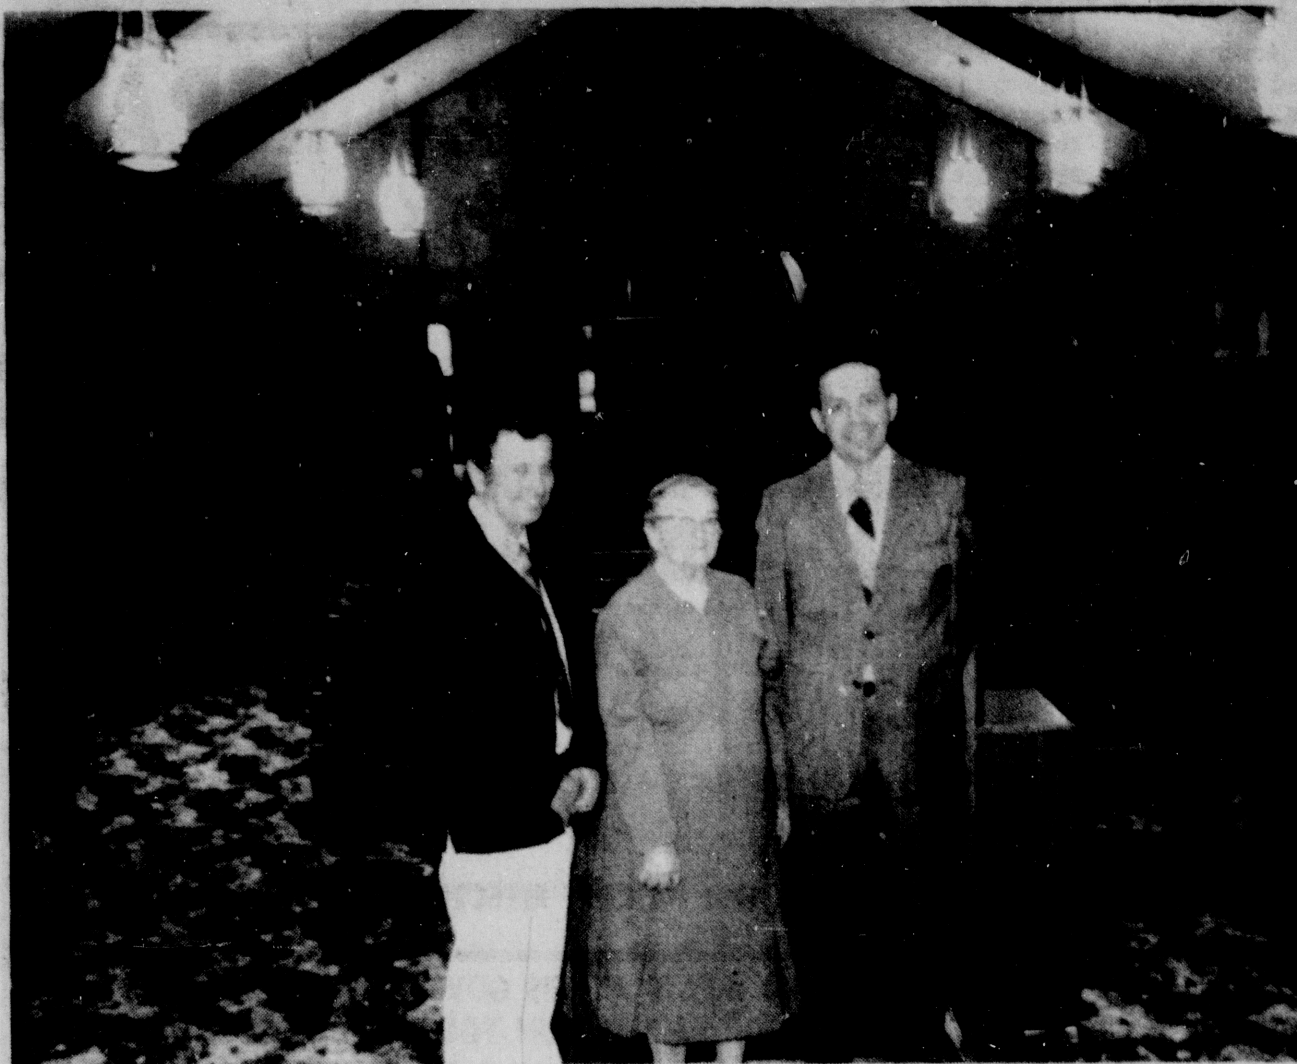

new and used equipment. The five-year contract with McCoy Funeral Home for ambulance service for the city, which expires in March, was discussed. But since no proposal had been submitted for a new contract, the council tabled the matter. The city has been subsidizing the ambulance service \$600 a month under the present contract.

W. A. Burton appeared before the council seeking permission to build a private hangar at the airport. The

council tabled the matter for 30 days.

In other action the council approved a lease with the Hamlin Gun Club for some land at West Lake for a shooting range. The council granted a five-year lease with an option for renewal.

The council also voted to disband its Auxiliary Police Department and approved the hiring of another patrolman to bring the department back up to full strength.

IN NEW SANCTUARY—From left, Donald Young, building committee chairman, Mrs. Ina Parker, church treasurer; and the Rev. Marshall Stewart, pastor, are in the sanctuary of the new Church of the Nazarene which will be used for the first time Sunday. A special dedication service and open house will be set later. Seating capacity of the sanctuary is 400. Cost of construction and furnishings is \$150,000.

NEWS AND VIEWS...

And What Have You

By BOB CRAIG

As we have explained before, we write this column on Mondays and always have trouble with things that are going to happen between the time we write this and the time you read it.

This is the case again with the Piper's Bi-District basketball game which was to be played Tuesday evening. At this time we do not know if Hamlin will be playing in the Regional Class A Tournament to be held in Lubbock Friday and Saturday.

But if they do make it up there, and we certainly hope so, then we wish them the best of luck and hope that they have a good following.

If you don't make it to Lubbock Friday for one reason or another and have some free time Friday then we would urge you to take in as least part of the Stage Band Festival being hosted for the first time this year by the Hamlin schools and Tim Jones, band director.

The bands will start playing at 9 o'clock and will continue until about 4:30 when the awards will be presented. Fifteen Class B, A and AA bands will be taking part.

The festival will be held in the old junior high school auditorium. It is most unfortunate that the new auditorium will not be ready in time for the festival this year.

We feel sure that many are wondering why the event was not postponed until the auditorium was ready. As we understand it, festivals are like basketball tournaments, track meets and other activities that involve a number of schools. You have to get yours on the calendar when you can find a free date.

The Hamlin festival will replace the Roscoe festival which has been dropped this year. It was either go ahead and have it this year at this time or else chance the problem of not having a free date next year.

This event should bring a number of people into our community Friday and we congratulate Tim for going to all of the trouble that is involved in hosting such a festival.

And while on the subject of bringing in these people for the festival we might pass along the following column by H. M. Baggerly, editor and publisher of The Tulia Herald, concerning the attitude of people about the town in which they live and comments which these people make to tourists and visitors to the town. We'll let him tell it in his own words:

"Sometimes when we hear the name of a community mentioned, the first thought in our mind is a

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One takes a sidelong glance at a proposed source of new tax revenue this week.

Dear editor:
I don't know of anybody who'd get a warmer welcome in Washington or Austin than somebody who has figured out a new source of tax re-

venue, not just a modification of an old one but a brand new tax source nobody has ever thought of before. In Washington he'd probably be given a Congressional medal and in Austin the Legislature might declare a state holiday in his honor.

I haven't tried for this honor as I'm like the man who said he was against all new taxes and most of the old ones.

But according to an article in the newspapers the other day a doctor in New York thinks he has hit on a new source of taxation. He wants a special tax on people who "smoke, drink or otherwise follow a lifestyle that harms their health." He'd have this money applied against the high cost of medical care which, he says, has been brought on by just such people.

I'm afraid the reporter who interviewed that doctor was a little slipshod. For example, he didn't say what the doctor weighed. Was he overweight? Shouldn't over-eating, about as harmful as anything you can do, be taxed the same as smoking and drinking? How much exercise does he get? Shouldn't a sedentary man be taxed for every mile he doesn't walk or jog?

Also, very once in a while don't you read about some man keeling over from shoveling too much snow? Shouldn't the doctor have said how much snow a man should shovel before he violates a proper lifestyle? There are a lot of snow-bound people in the country needing to know.

In fact, to make this bad-health tax fair for everybody, the doctor ought to get

Congress to enact a Lifestyle Law which says that if a man follows the prescribed health rules he ought to live to a certain age, say 75, and if he falls short tax him on prima facie evidence of having lived the wrong way. Any doctor who fails to qualify could be taxed double.

Yours faithfully,
J.A.

Couple Marks 67th Anniversary Sunday

Mr. and Mrs. J. B. Eakin celebrated their 67th wedding anniversary Sunday. No special observance was held but the couple's daughter, Mrs. H. D. (Mary Emily) Bolding of Irving was here last week for a visit.

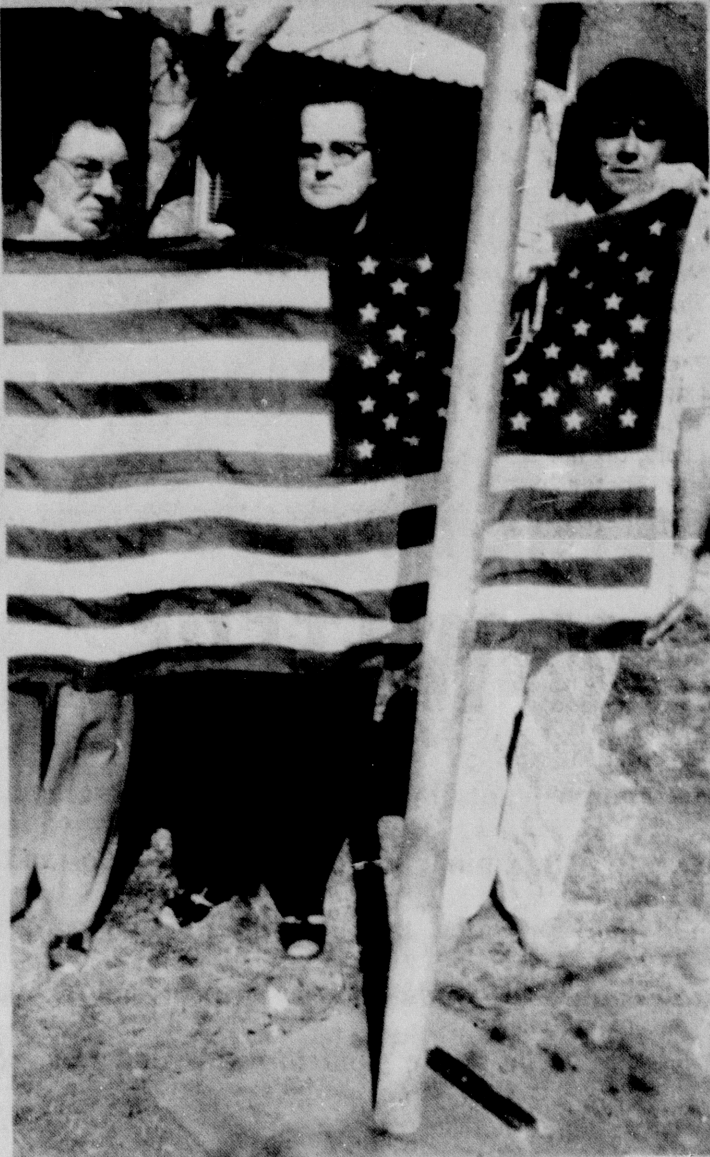

The couple married Feb. 20, 1910, at the country home of her parents, Mr. and Mrs. E. T. McGee.

She was born Edna McGee June 19, 1890, in Wise County. She moved here with her family in 1900 before Hamlin

was organized. She was employed in a dry goods store following their marriage.

Mr. Eakin, who has been blind for about 12 years, is a resident of Holiday Lodge. He was born Feb. 27, 1888, in Campbell in Hunt County. He will observe his 89th birthday Sunday.

He was City Secretary and city and school tax assessor-collector for 24 years, until his failing sight forced his retirement. He was later Justice of the Peace here.

POLE AND FLAG GIVEN—A Dedication of Colors ceremony was held Monday at Holiday Lodge when a new United States flag and a flag pole were formally presented to the Lodge. James Crowley, Lodge administrator, right, accepted the flag which was presented by Zelma Perryman, left, and Mrs. Plez Ferrell of the Ladies Auxiliary of the Veteran's of Foreign Wars, Post No. 6014. The VFW post provided the flag pole.

VFW, Auxiliary Give Flag, Flag Pole to Home

The Veterans of Foreign Wars, Post 6014, and the Ladies Auxiliary presented a flag and flag pole to Holiday Lodge nursing home Monday in a special dedication service.

The Dedication of the Colors was held in the dining room by the Ladies Auxiliary. Mrs. Plez Ferrell, president of the Auxiliary, presided. Zelma Perryman gave the dedication of the flag and Mrs. Jack Robbins and Mrs. T. W. Blackburn displayed the flag for the pledge of allegiance.

James Crowley, ad-

ministrator, received the flag for the Lodge.

Mrs. L. B. Bruner sang the National Anthem and Mrs. L. E. Warnell was at the piano. Other songs were sung by the group and the residents.

The flag pole was provided by the VFW post and a plaque at the base of the pole shows the VFW and Ladies Auxiliary as donors.

We Can Show You The Way!

This weekend, call both families for practically the price of one.

It's true! This weekend—and every weekend between 11 p.m. Friday and 5 p.m. Sunday—you can place two Long Distance calls for practically the price of one weekday evening call, when you dial the 1+ way.

For example, a 10-minute call to someone a thousand miles away weekday evenings (5 p.m. to 11 p.m., Sunday-Friday)

would cost you \$2.44, plus tax. Which, you'll admit, isn't bad.

But for practically the same price, you could make two eight-minute calls over the same distance...any weekend.

It's almost like getting one call free!

So this weekend, enjoy a couple of Long Distance calls. And make three families happy!

Long Distance.
What else is so nice for the price?

favorable—or unfavorable—memory of some past experience.

"Little towns need all the favorable impressions among strangers that they can garner.

"We also noted in this incident a degree of loyalty, both community and personal. Some people have the habit of bad-mouthing their own hometowns, particularly to strangers. A tourist asks a filling station attendant or a waitress in a restaurant about the local schools, a local church, or the local newspaper and receives a sarcastic answer.

"The answer may not even reflect the feeling of the one questioned, but nevertheless, the answer is automatic! With some, it is an attempt of the one questioned to impress the tourist that he is not a part "of this hick town." It makes him feel comfortable to leave the impression that his tastes and background are far above that which is offered by local institutions.

"Bad-mouthing one's community makes as much sense as bad-mouthing one's own place of business to a prospective customer!"

So please remember this when these people come to town Friday looking for a place to eat, to get gas or just look around and maybe shop.

The Church
PLANTS
and WATERS...

The church plants the seed of faith, waters and tills the soil.

These are the things that a church can do, and no more...

then God provides the love and life-giving essentials. The

growth then depends on the type of soil... is it barren...

mediocre... or fertile. Your life with God will grow according

to your will and desire.

"Blessed is the man that walketh not in the counsel of the

ungodly, nor standeth in the way of sinners, nor sitteth in

the seat of the scornful. But his delight is in the law of the

Lord: and in his law doth he meditate day and night. And

he shall be like a tree planted by the rivers of water."

The Church is God's appointed agency in this world for spreading the knowledge of His love for men and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Reddy's helpful tips for your HOME LAUNDRY

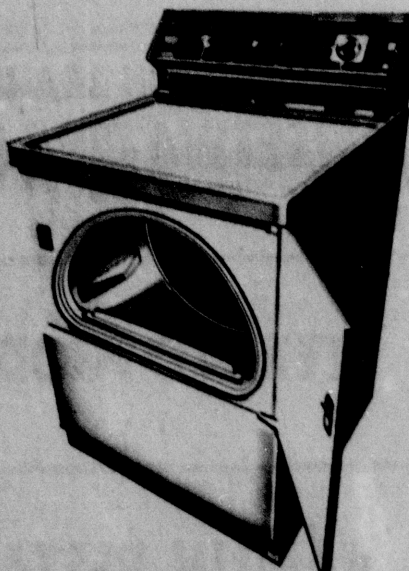

Wash and dry a full load, but never overload... it is essential for each item to move freely for proper cleaning and drying.

Choose the correct cycle for washing modern materials. Perhaps hot water isn't needed, and only a gentle drying temperature.

Too much detergent can clog machine and drains... always measure, don't guess!

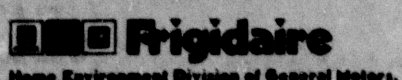

Follow the manufacturer's recommendations for your type equipment.

Mixing brands of detergents can cause graying of clothes.

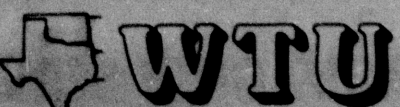

Many manufacturers of permanent press garments recommend machine washing and machine drying for best results. Following instructions on the garment tag can help preserve the life of your clothing and give you wrinkle-free clothes without need for ironing. A big savings!

FmHA Announces New Home Loan Program

The Farmers Home Administration has begun a program through which it will guarantee rural housing loans made by commercial banks, savings and loan associations, and other private lenders, William T. Grussendorf, FmHA County Supervisor for Jones and Shackelford Counties, announced.

FmHA, the rural credit agency of the U.S. Department of Agriculture (USDA), will guarantee up to 90 percent of the principal and interest of these loans.

Guaranteed housing loans will be available for moderate income borrowers who cannot get housing mortgage credit without a guarantee. Applicants who cannot qualify for guaranteed

loans may apply for loans made by FmHA.

At present, the USDA agency will offer loan guarantees only under its single-family housing loan program. FmHA will continue to make single-family housing loans with its own funds. It will also continue to make, but not guarantee, loans for rural rental housing, farm labor housing, housing site development, and other purposes.

Single family housing loans are made in open country, towns of up to 10,000 population, and certain designated towns of between 10,000 and 20,000 population. They finance modest but adequate housing and related facilities, Grussendorf explains.

Loans may be used to buy, build, improve, repair, or rehabilitate houses and relate facilities, and to provide adequate water and waste disposal systems.

Guaranteed loans will be made only to applicants with moderate income, defined by FmHA as adjusted gross income of less than \$15,600 per year for residents of Texas, and not eligible for FmHA subsidized rural housing loans. Low income applicants may be eligible for subsidized rural housing loans made by FmHA.

Loans to be guaranteed are limited to 97 percent of the market value of homes and sites for the first \$25,000 and

Kathy Hooper In Regional Game In Abilene

Kathy Hooper, a Hamlin High School graduate, is a member of the Weatherford College Coyettes who are co-champions of the North Texas Junior College Athletic Association Conference. The Coyettes are 5-1 in conference play and shared the title with McLennan Junior College.

The Coyettes will play in the regional tournament to be held Feb. 28 and March 1-2 in Abilene. The tourney is being sponsored by the Abilene Chamber of Commerce and McMurry College. The regional champion will advance to the National playoffs.

The Coyettes are coached by Betty Jo Crumm and defeated Ranger Junior College in their final conference game, 68-50. Miss Hooper was high point for the game with 14.

Sell Light Bulbs

The Youth of the First Assembly of God Church will be selling light bulbs Friday and Saturday door to door. Orders may be called in to 576-3508 or at the church 576-3433.

The money raised will go for missions and youth projects.

Mrs. A. L. Gamble spent last week visiting her mother, Mrs. Ella Byrd at Hollis, Okla.

95 percent of the loan in excess of \$25,000. The borrower must have equity from his own resources, in the form of cash or land for the down payment, notes Grussendorf.

The top limit for a guaranteed rural housing loan to a resident of Texas is \$33,000. The maximum repayment period is 33 years.

Grussendorf also reports that FmHA regulations provide lenders who obtain guarantees for rural housing loans options for selling, assigning, or selling participations in the guaranteed parts of these loans.

FmHA regulations require that the lender making a guaranteed rural housing loan be a local lender—located in or doing business in the area where the house is located.

To apply for an FmHA-guaranteed rural housing loan, contact your local lender.

Sen. Farabee Seeks Change In Grain Warehouse Act

Austin—State Senator Ray Farabee has introduced amendments to the Texas Grain Warehouse Act which will upgrade existing regulations to aid in protecting grain farmers from loss through grain trading and speculation.

The bill, co-sponsored by State Representative Joe Hubenak of Rosenberg, will raise bonding requirements to the level of federally licensed warehouses, require close accounting of scale tickets and make issuance of negotiable grain warehouse receipts mandatory.

"My goal is to make the deposit of grain in a state-licensed warehouse as safe as the deposit of money in a bank," Farabee said. "The hard work and savings of many farmers for one or two years is stored in grain elevators and warehouses."

"The grain business has changed so rapidly in the past 10 years that grain farmers are no longer fully protected by the current law. We must discourage those few who would speculate with the property of others," Farabee said.

The proposal will raise minimum bond requirements for warehouse operators from \$10,000 to \$15,000, and the maximum will be upped from \$500,000 to \$750,000 with step increases based on

Rowland Steele Gets Promotion To Lt. Colonel

Maj. Rowland G. Steele, assistant professor of military science at Hardin-Simmons University in Abilene, was recently promoted to the rank of lieutenant colonel in a pinning ceremony held in Moody Center on the campus.

The silver oak leaf denoting his new rank was pinned on Maj. Steele by his mother. He is the son of Mr. and Mrs. Virgil Steele of Hamlin and is a graduate of Hamlin High School.

During the ceremony Lt. Col. Steele said that it seemed appropriate that he should receive this promotion during his current three-year period of service at H-SU since he began his army career at H-SU in 1957-61 as a cadet and received his commission as a second lieutenant at H-SU in 1961.

Lt. Col. Steele's three-year term of service at Hardin-Simmons will expire in August, 1978. After that time, tentative plans call for his transfer to St. Louis, Mo.

storage capacity. The bill will establish penalties for fraud, issuing illegal receipts of scale tickets, counterfeiting documents or altering or forging a license, under charges as either Class B misdemeanors or third degree felonies.

LX571

IT'S DEPENDABLE

Dependable yields of consistently high quality fiber even in drouth years. That's what made LX 571 a long time favorite with farmers here about. And it's nice to know that you don't have to give up something else for drouth resistance. Farmers appreciate the good gin turn-out of fairly long staple fiber which mixes in the premium range under normal conditions.

At maturity you'll like the looks of LX 571's storm resistant bolls and at harvest you'll appreciate how well it strips one-time-over.

LX 571 along with other Lankart varieties accounts for over 60% of the cotton planted in the Altus Classing Office territory and have for a number of years... strong testimony from people who know how to grow cotton in this area. If you think this might be a dry year

CHECK THESE LX 571 CHARACTERISTICS:

- Good dryland cotton
- Good root system for drouth resistance
- Top yields
- Good gin turn-out
- Medium early maturity
- Storm resistant bolls
- Excellent stripper variety
- Well-adapted to one-time-over harvesting
- Staple length in the 1" and longer range
- Micronaire in the premium range (under normal growing conditions)

CHECK THESE RESULTS:

Information from cotton variety comparisons made in 1976 in various locations in Texas and Oklahoma:

- Childress, Texas
 - On dryland without fertilization LX 571 (Lankart) made 687 pounds of lint per acre. The cotton which was machine harvested had a micronaire of 4.7, staple length of 30 and a gin turnout of 28.8 percent.
- Haskell, Texas
 - In a dryland cotton variety test, LX 571 produced 685 pounds of lint to top the test and beat the second variety in the test by 12 pounds per acre. The fiber graded 50, had a staple length of 32, micronaire of 5.4 and a gin turnout of 29.5 percent.
- Wall, Texas
 - LX 571 also topped this test of eight varieties on non-irrigated land without fertilizer. It produced 544 pounds of lint with a staple length of 34. Micronaire was 4.7, solidity in the premium range.
- Delhi, Oklahoma
 - Under extreme drought conditions and without irrigation, LX 571 made a lint yield of 250 pounds per acre. The cotton graded 40, had a staple length of 30/32, a micronaire of 5.2. The gin turnout was 29.9 percent.
- Cooperaton, Oklahoma
 - In this test on the Kenneth Boyd farm, Lankart LX 571 produced 349 pounds per acre of very good cotton. It graded 50 with a staple length of 33/32, micronaire of 5.0 and had a gin turnout of 28.6 percent.

If you raise dryland cotton in this area where drouth is a threat, go with LX 571 this year. You can get Lankart LX 571 from your ginner.
